

## ***DNA test results for black bulls that may carry the red gene!***

***We tested any Black Bull that might carry the Red gene. Here is a list of the bulls that were found to be red carriers. If they were not tested then they have many generations of homozygous black sires and are considered homozygous black.***

Lot 85	Red Carrier
Lot 87	Red Carrier
Lot 89	Red Carrier
Lot 92	Red Carrier
Lot 93	Red Carrier
Lot 96	Red Carrier
Lot 97	Red Carrier
Lot 98	Red Carrier
Lot 100	Red Carrier
Lot 102*	May carry Red gene
Lot 103*	May carry Red gene
Lot 117	Red Carrier
Lot 141*	May carry Red gene
Lot 142*	May carry Red gene

**\* These four bulls were not tested. They are out of black cows but do have a red sire 3 generations back and may carry the red gene.**
