Sire: Pioneer      Dam: KSR 70R Pref. Beef/Legacy

*We would like to introduce you to our Simm-Angus herdsire. 51X is sired by the industry leading Final Answer son, SAV Pioneer and backed by several highly proven Simmental sires on his maternal side. Admired by all who have visited the ranch, he packs a lot of muscle and body mass into a long bodied, very eye appealing package. His stellar performance combined with his overall quality and good looks make us excited about his future!*

*From capacity and muscle to marbling and rib eye, Gravity has set the standard in this year's Red Angus sired lineup. We have praised Cherokee Canyon in the past for his outstanding contributions and so it's only fitting that in the evolution of superior genetics that he leave behind a son that expands upon those positive attributes. You're sure to appreciate the masculinity, muscle, and fleshing ability that you find within this sire group!*

Sire: Jack Hammer Dam: 503U DakotaCop/Leutn

Here is a lower birth weight, 7/8 Red Angus bull who displays an easy calving look. Out of a Dakota Copper daughter, he performed well on test with ratios of: 105 YW, 111 ADG, and 126 for IMF. All of our Jackhammer calves came easy and unassisted! Remember his EPD's are SM based and his BW EPD of -4 is in the top 5% of Hybrid sires.
